

# Aukey EP-B2 Bluetooth Headset

## EasyClick APP (Support for IOS and Android devices)

### 1. Download EasyClick APP.

1) For IOS devices, download “CSR EasyClick” from APP store. EasyClick lets you use the headset as a wireless controller for camera function.

2) For Android devices, download “EasyClick” from [www.aukey.com](http://www.aukey.com). EasyClick lets you use the headset as a wireless controller for camera function. It also adds caller ID function to your smartphone and read out text messages in English.

(download “EasyClick” for Android devices)

### 2. Operation Guide

#### 1) For IOS devices

---

Camera	Single press the power button or multi-function button to take pictures, not support in Screen Lock.
--------	--

---

#### 2) For Android devices

(1) When successfully paired, opening EasyClick APP, headset will automatically connect with EasyClick for 4 seconds at the first time.

(2) Drag icons to the bottom quick launcher with corresponding headset button. ( The default “Vol+ Launcher” for Camera.)

Enter the interface:

“OK Launcher” press power button of headset once

“Vol+ Launcher” hold and press V+ button of headset for 3 seconds

“Vol- Launcher” hold and press V- button of headset for 3 seconds

**Note:** Please exit the APP on Setting if the headset and APP are not responding.
