Power On/OFF

Slide the switch button to on to power the device on.

• When the witch button is in on position, hold the enter button for about 3 seconds and then it will fall into sleep mode, hold it again to wake up the player.

• To turn off your player totally, please slider the switch button (Main Power) to off.

• If you can't turn on the player, please kindly note if the slider switch is in "ON" position.

Charge the Player

Plug one end of the micro USB cable into the USB port of a computer, the other end to the port on your device. While it is fully charged, disconnect the cable from your device by pulling it straight outward.

Note: when you start charging, it will show two options: "Charge & Transfer" and "Charge & Play". An icon in the top right corner will show the charging status.

Play Your Music

While there is "Music" icon on main screen, tap the enter button ▶❙ to access to its function. Then you can play your music files as "All songs", "Artists", and "Albums".

• Volume adjust

Tap the +- button on left side of the player to adjust the volume, and then tap the enter button to ensure.

• Return

1. Return to the main screen: tap the M button on right side of the player continually to back to the main playing screen.

2. Return to the music playing screen: tap the enter button with icon "Now playing"

on main interface to access to now playing interface.

• Rewind/Forward

While it's on music playing interface, hold the button ⏭ to fast forward, tap to next music file; hold the button⏮ to rewind, tap to the previous song file. Tap the enter button ⏯ for playing/pause.

• Submenu

While it's on music playing interface, hold the button "M" to access to the submenu. Then a related list will show, including "Play mode", "Sound settings", "Repeat settings" and "Delete".

1. Play mode

Hold the button M > "Play mode" > "Repeat"/"Shuffle". Select according to your need.

2. Sound settings

Hold the button M> "Sound settings" >"Equalizer"/ "Variable Speed Playing".

For equalizer, you can choose different music style, such as "Rock", "Funk" and etc. For variable speed playing, you can set the playing speed as you need.

3. Repeat settings

Hold the button M> ""Repeat settings" > "Replay Mode" to access to its function, and the icon for A-B indication will appear on playing screen.

① Starting time for replay is confirmed while tapping the icon ⏭ (B is flashing)

② Tap the icon ⏭ again and then it will start replaying (adjust the replay paragraph according to your need).

③ Tap the icon ⏭ again to back to normal playing.

Tap "Replay settings" > "Replay Times", and then choose from 1 to 10 with tapping the button +/-.

Tap "Replay settings" > "Replay Interval", then choose from 1 to 10 seconds with tapping the button +/-.

4. Delete

Delete the music files you need.

• Resume playing

1. While the music is still playing in the backstage, and then turn the slider switch button off, it will start playing from where you left the next time you turn it on.

2. While the music is still playing in the backstage, and it's on music playing

interface, hold the enter button for about 3 seconds to turn it off so it will play the music continually next time you turn it on.

• Transfer Files to Your Player

Connect your device to the computer with the enclosed Micro USB cable. The mp3 player will show up as a removable disk as soon as the computer recognize it and then just drag files into the mp3 player. If your computer cannot recognize the player, the enclosed Micro USB lead may has problem please use another Micro USB lead to connect it to your PC.
