Declarations

1. This manual is for guiding application. This manual provides photos, graphics, illustrations, QR code and so on, whose interpretation shall be only applicable to this product. There might be some discrepancies in the appearances of specific products, please refer to written explanations and actual products. If product version needs to be updated or other requirements are needed, may update this manual; if the latest manual is needed, please log in the official website to download the latest version.

2. Disclaimer: To the fullest extent permitted by law, products described in this manual (including hardware, software, firmware, etc.) shall be in accordance to its current situation. Littlelf does not provide explicit or tacit guarantees of any kind for possible defects, errors or failures, including but not limited to merchantability, quality satisfaction, fitness for a particular purpose, and non-infringement of third party rights, etc.; nor compensate for any special, incidental or indirect damages resulting from applying this manual or our products, including but not limited to loss of business profits, loss of data or documents. To the fullest extent permitted by law, Littlelf's liability shall not exceed the amount paid by you for purchasing this product. If suspension or termination of service is caused by following reasons: improper application and installation regardless of instructions, defending national or public interests, force majeure, misconduct of your own or third party, Littlelf shall not bear any responsibility for life damage or property loss to you or to any third person.

3. If this product is accessed to internet, network attacks, hacker attacks, virus infection or other risks might occur, which will result in abnormal working, information leakage and other problems. In this case, Littlelf shall not bear any liability, but will provide timely technical support.

4. Under proper installation, trespassing incidents can be perceived in a particular zone, but cannot avoid accidents or consequent life injury or property damage. Vigilance shall be raised and safety awareness shall be enhanced in daily life.

5. The pre-installed software has legitimate rights or has obtained legal authorization, and therefore unauthorized software is not recommended. Littlelf shall not bear any liability for incompatibility, unavailability, infringement, personal injury, property damage, compensation for third parties, or penalties, etc, which results from your installing software on your own.

7. Legal principle shall prevail in case of any discrepancies between above contents and legal principle.

Installation Instructions

Installing bracket

Installation 1：

Fixed equipment and support installation

Pay attention to make the outlet of power source face down, and adjust the frame to its best picture according to the range you need when installing the bracket.

Base gasket Installation 2：

Fix the base gasket and equipment base (clamp the gasket slot with two fingers, buckle the slot into the bottom slot, tighten in clockwise direction)
