Crown

Second Hand

0:Normal Position
1:Adjust Position

1. Description:
   0: Normal use position;
   1: Turn the crown to adjust time.

2. Time Setting:
   1) When the second hand is at 12 O'clock, pull out the crown; or just pull out the crown if there is no second hand;
   2) Turn the crown to adjust time. To make sure the time is accurate, first turn the minute hand 5 minutes ahead of the real time, then turn it anticlockwise back to the real time;
   3) Compare the adjusted time to the real time and wait until the second hand is at 12 O'clock in real time then push back the crown

1 2

Second Hand

Day

0:Normal Position
1:Adjust Date position
2:Adjust time position

1. Description:
   0: Normal use position;
   1: Turn the crown clockwise to adjust day;
      Turn the crown anti clockwise to adjust date;
   2: Turn the crown to adjust time.

2. Time Setting:
   1) When the second hand is at 12 O'clock, pull out the crown to 2 position;
   2) Turn the crown to adjust time. To make sure the time is accurate, first turn the minute hand 5 minutes ahead of the real time, then turn it anticlockwise back to the real time;

USER MANUAL

3) Compare the adjusted time to the real time and wait until the second hand is at 12 O'clock in real time then push back the crown.

4) When adjust time for over 24 hours, the day and date display will also change, which is why time setting is prior to day and date setting;

5) To set the right AM and PM, you can move the hour hand over 12 O'clock and see if the date display changes. If date doesn't change, means that is 12AM, otherwise it is 12PM.
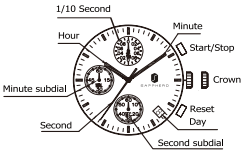

Day and Date Setting;

1) Pull out the crown to 1 position, turn the crown clockwise to adjust day and turn it anti clockwise to adjust date;

2) Push the crown back to 0 position;

3) Please do not adjust day and date display during 9pm-5am because they cannot automatically change the next day; if you need to reset, please change the time to other time period first, then set the day and date display and change back to the right time;

4) Please manually adjust date at the end of February and other months with 30 days;

5) The day and date display can be shown differently according to different movement,but the setting method is the same. For day only movement, please refer to above setting method.
