Connect to a Bluetooth device

1. Enter the NB05 into **PAIRING MODE**–For 1st use, once turned on, NB05 will enter pairing mode automatically, LED flashes **RED** & **BLUE** with a“pairing” voice prompt.For non-1st use, press & hold **⌘** for 5 seconds to manually enter pairing mode.
2. On your device –Activate Bluetooth and select “AvantreeNB05” to connect.If you are using a Bluetooth transmitter, enter your transmitter into **PAIRING MODE** (Please refer to your transmitter’s user manual).
3. Once connected, you’ll hear a“connected” voice prompt from NB05.

Notes:

- The NB05 will automatically turn off if**
- 1) it fails to pair with another device within 2 minutes.
 - 2) it’s kept out of connection range for over 10 minutes.

Connect with two Bluetooth devices simultaneously

1. Connect the NB05 to the FIRST device as shown above.
2. Enter the NB05 into PAIRING MODE again, your 1st device will disconnect from NB05. Then Activate Bluetooth and select "Avantree NB05" on your 2nd device to connect.
3. Now select "Avantree NB05" on your 1st device to connect to NB05.

NB05 is now connected with both of your devices.

Note: This feature only works for two mobile devices, such as cellphones and tablets. It doesn't work for PCs or Bluetooth transmitters.

Reconnect to Bluetooth device

Once powered on, the NB05 should automatically reconnect to the most recently connected device within 5 seconds. If it can't reconnect within 5 seconds, please select "Avantree NB05" on your device to connect manually. (If you're using a Bluetooth transmitter, please refer to its user manual.)

Factory Reset / Clear pairing history

You may need to factory reset the NB05 when you experience short range, audio cuts, or cannot reconnect/pair.

Turn on the NB05. Press and hold the "+" and the "-" buttons together for 5 seconds, the LED indicator will light up RED and BLUE together (looks PINK) for 5 seconds, and you'll hear two "beeps". Now the NB05 has been successfully reset and will enter pairing mode automatically with the LED indicator flashing RED and BLUE alternately.

Charging

When you hear "battery level low", you should recharge the NB05. Please plug it into a USB wall charger (DC 5V / 0.5-2A) or a powered USB port via the micro USB cable that we provided.

Normally it takes **3 hours** to fully recharge. LED indicator will show RED while charging and automatically turn off when the charging is complete.
